JavaScript - Assignments

String

1. Combine "Key" and "value" using concat method, *without space in between*
2. Extract the "bring home" from "These are the things that I bring home"

Math

1. Find out the remaining Math functions not discussed.

Function

1. Write a function to find the greatest of 3 numbers and returns the greater value.Using Arrow Function

2. Write a function to convert celsius to fahrenheit.

Arrays

1. Using map() function in array `[ 25 , 16 , 9 , 4 , 36 ]` make a new array with the square root of the elements in the given array. (*Use arrow function and Math.sqrt*)

2. For the same array given above use *filter()* to extract the even numbers into another array. And *sort()* the resultant array.

Loops

1. Write a loop to find the *Fibonacci series* upto 7th number using while loop.

Thank You
